Microsoft Office
Google Docs

RELEVANT EXPERIENCE

MATRIX Professional Services, Atlanta, Ga — Front End Web Developer

January 2016 - Present

Part of a diverse and talented consulting team that delivers dynamic web and mobile applications.

- Collaborate with UI/UX designers to create the best user experience
- Work on projects that are managed with Agile methodology
- Evaluate client goals/expectations with suggestions that solve problems
- Present prototypes to potential clients
- Constantly staying up to date with new technology, frameworks, and best practices within the Web Developer community.

TECH CURRENTLY IN USE: Reactjs, Ionic 2, Angular 2, Xcode, React-Native, TypeScript

The Iron Yard, Atlanta, Ga — *Front End Web Developer Graduate*

September 2015 - December 2015

A 12 week course of intensive learning, in which the foundation of the curriculum was front end web development. The overall goal of this type of education is to place its graduates into real world scenarios within development teams, armed with the tools needed to complete design goals and deadlines.

- Completed over 20 projects designed to enhance web development knowledge
- Worked with Rails engineers to design and implement RESTful JSON APIs for web applications
- Dove deep into JavaScript frameworks and libraries including: Angularjs, Reactjs, Backbonejs, Underscore and jQuery
- Designed multiple web apps following multiple Photoshop design files (PSD)
- Created a mobile app using Ionic Framework based in Angularjs

PROJECTS: SmartCart, Rupix, and SmashCards

Exit Success Realty, Warner Robins, Ga — *Realtor®*

January 2014 - September 2015

- Generated lists of properties for sale, their locations, descriptions, and available financing options, using computer applications.
- Marketed real estate using multiple advertising techniques, including online web sites utilizing Search Engine Optimization (SEO).

EXTRACURRICULAR

The Iron Yard, Atlanta, Ga — *Intro to Web Design - Instructor for Free Kids Coding Classes*

October 2015 - November 2015

- Worked as an instructor teaching students, ages 11-18, the basic foundations of web design. The curriculum began introducing the students to HTML and CSS, and ending with a final product web page of their own design.
